## **REInvest strengthens its team with Daniel Hohls-Larsson**

### **New Head of Transaction International to boost European investments**

The Luxembourg-based asset management and investment specialist REInvest Asset Management S.A. strengthened its team by appointing Daniel Hohls-Larsson (40) to the newly created position of Head of Transaction International on 1 November 2020. The Business Administration graduate will be responsible for commercial real estate-related investment and sales activities on the pan-European markets.

Daniel Hohls-Larsson studied Business Administration at the University of Applied Sciences in Biberach and began his professional career as an investment manager at Corpus Sireo in Luxembourg. Later he was also given responsibility for commercial real estate asset management in France, Great Britain and Turkey. Further stops in his career included SEB Investment GmbH in Frankfurt and Luxembourg, where he was transaction manager for German and European real estate / portfolio transactions. He then joined BNP Paribas Real Estate Investment Management in Frankfurt and Luxembourg. There he coordinated the structuring and integration of the transaction and asset management departments for the Global CIO throughout Europe and managed the local investment teams during the investment process. In addition, he supervised the portfolio management, transaction and asset management activities for AIFM in Luxembourg.

"As in the past, we continue to pursue a selective and sustainable investment strategy in the interests of our customers," explains Hans Stuckart, Managing Director of REInvest Asset Management S.A. "Recognising the significance of a balanced risk/return profile, it's important to note other countries in Europe offer good development and investment opportunities in addition to the traditional core markets. Daniel Hohls-Larsson will boost our

Daniel Hohls-Larsson became head of International Transaction Management at REInvest on 1 November 2020.

## **Background information on REInvest**

REInvest Asset Management S.A. was founded in Luxembourg in 2017 as a property specialist for strategic and operative asset and investment management. The company is a subsidiary owned by REInvest Advisor Services S.à r.l., founded in 2014.

REInvest is an independent, owner-managed company that thanks to its experienced team and close partnerships possesses a far-reaching pan-European network on all levels of the real estate value added chain.

Its corporate capabilities extend from strategic advice on the real estate and fund levels right up to the structuring of regulated and non-regulated investment vehicles. The firm is currently managing properties of highly disparate utilisation categories throughout Europe, worth over 1.5 billion euros.

The portfolio now under management is broadly diversified in terms of geography, with investment locations in twelve different European countries. The principal focuses in terms of numbers and volume are at present located in the UK, Germany and France. Other investment locations currently being addressed are the capitals in the Baltic States as well as Scandinavia, Amsterdam, Madrid, Barcelona and Dublin.

The team's expertise and successful track record adds up to more than 150 property transactions managed, with a volume of over 4 billion euros.
